**RE:** *For Your Review Caltrans – Construction on State Route 191 in Butte County near Paradise, CA - Contract No. 03-F7604 – Items 29 Contractor-Supplied Biologist and 30 Natural Resources Protection Plan*

**COMMENTS:** Quote below is for biological services including preconstruction nesting bird surveys, biological monitoring, and the preparation of the natural resources protection plan. Good luck and thank you for the opportunity.

### **Task 1: *Natural Resources Protection Plan***

ECORP will develop a Natural Resources Protection Plan for the project. Information included in the plan will include a list of species and habitats addressed in the plan, protection measures for regulated species likely to occur within the project site, plan for implementing the protection measures including a monitoring schedule, monitoring duties, justification for any instance where protection measures are not necessary for a regulated species, schedule for inspecting the protection measures, schedule for submittal of monitoring reports, response plan for instances where regulated species are encountered, and content and schedule for the Biological Resources Information Program (Training). ECORP will draft the plan and submit it to the client for review.

**Optional Task 1 Cost: \$1,975**

*\*ECORP assumes two rounds of revisions will be required to finalize this plan. Client will provide ECORP with electronic copies of all the environmental permits for the project.*

### **Task 2: *Preconstruction Nesting Bird Surveys***

ECORP Consulting, Inc. (ECORP) will provide a qualified biologist to conduct preconstruction nesting bird surveys prior to the start of construction activities. California Department of Fish and Wildlife (CDFW) typically anticipates nesting or attempted nesting by migratory and nongame birds from March 1 to September 15. Prior to the pre-construction surveys an in-office database search for any bird nest records within the vicinity of the project will be conducted. Following the database search, a qualified

avian biologist will perform ground-based surveys of the entire project site and within the vicinity of the project site. If the active nest of any migratory bird or special-status bird species is discovered, the project engineer will be contacted and a protective radius will be established around the nest site. A report summarizing the methods and results of the surveys and also including detailed observations and locations where regulated species were observed or a statement that no regulated species were observed by the biologist will be submitted to the Client for review. The report will be submitted prior to the start of construction activities.

**Task 2 Cost: \$3,425**

**Task 3: Biological Monitoring**

ECORP will provide qualified biological monitor during construction/project implementation for the above-referenced project. Client will provide copies of all applicable environmental permits (e.g., streambed alteration agreements, wetlands permits, biological opinions, etc.) and mitigation measures. ECORP will provide a qualified biologist that meets the requirements of Caltrans and the regulatory agencies. The biologist will document compliance with applicable permits and maintenance of buffer/protection areas and monitor the protection of sensitive species and their habitats. Client and their subcontractors will be responsible for the safety or other required trainings of the biologist(s) provided.

After the first day of monitoring, ECORP will provide the client with template daily monitoring reports, incident reports, and weekly monitoring reports for review. After approval from the client, ECORP will use the templates in future reporting. ECORP will prepare daily monitoring reports. These reports will be submitted weekly to the client. Any incident reports will be submitted to the client within 24 hours.

**Task 3 Cost (Full Day): \$1025/day\***

*\*Inclusive of travel, lodging, and other direct costs. Assumes a maximum of 12 hours/day including drive time and daily monitoring report. Additional time will result in overtime charges in accordance with State and Federal laws. Hours in excess of 12 per day will be charged at \$125/hour. Costs are per biologist provided.*

If the biological monitor is requested for fewer than five hours in a given day, the client will be charged the "Half Day" rate below.

**Task 3 Cost (Half Day): \$625/day\*\***

*\*\* Inclusive of travel, lodging, and other direct costs. Assumes a maximum of 5 hours/day including drive time and daily monitoring report. Costs are per biologist provided.*

Hi Steve,

Here is the quote for the work on the 191 job.

I left out the additional area, just because it was specific to what Teichert planned. I don't feel right being the one to share that info prior to bid.

If you need that info after, I would be happy to share.

Talk to you soon,

**RE: DISADVANTAGED/MINORITY/WOMEN BUSINESS ENTERPRISE  
(DBE/MBE/WBE) RECERTIFICATION APPROVAL File No. - 163 - 32609**

Dear Ms. Espie-Underwood:

We are pleased to advise you that after careful review of your application and supporting documentation, the City of Los Angeles has determined that your firm meets the eligibility standards to be recertified as a **Disadvantaged/Minority/Women Business Enterprise (DBE/MBE/WBE)** as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended.

Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs and the City of Los Angeles DBE/MBE/WBE directory under the following specific area(s) of expertise that you have identified on the business service form for contracting opportunities:

<u>NAICS Code</u>	<u>Description</u>
541330	Engineering Services
541620	Environmental Consulting Services
541690	Other Scientific and Technical Consulting Services
562910	Remediation Services

Your DBE certification is good for five years from the date of this letter and applies only for the above codes. You may review your firm's information in the CUCP DBE database, which can be accessed at the California Department of Transportation's website at [www.dot.ca.gov/hq/bep/](http://www.dot.ca.gov/hq/bep/) and the City of Los Angeles DBE/MBE/WBE database at <http://bca.lacity.org>. Any additions and revisions must be submitted to the City of Los Angeles for review and approval.

After the five-year certification period, your entire file will be reviewed in order to ascertain continued DBE certification status. You will be notified of the pending DBE status review and any documentation update necessary prior to the expiration date.

The Regulations also require annual updates during this five-year period. In order to assure continuing DBE status, you must submit annually a DBE Declaration with supporting documentation, in the format, which will be sent to you. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm's DBE standing, the DBE certification of your firm will continue until the five-year certification has expired.

Rates are subject to change for unforeseen rises in petroleum related goods and taxes.

## QUOTE TERMS AND CONDITIONS

### THIS AND ALL BUTTE SAND TRUCKING CO (SELLER) QUOTES ARE SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:

1. The customer (Buyer) must submit to Butte Sand Trucking Co. (Seller) a signed Quote or P.O. within 10 days of the project award or within 30 days of the quote, whichever is earlier, to secure the quoted price. The buyer will pay for any increase in the cost of production due to the buyer not providing a signed Quote or P.O. within 10 days of project award or within 30 days of the quote, whichever is earlier.
2. Butte Sand Trucking Co. strongly recommends a minimum of 3 weeks notice for scheduling of the plants for timely delivery of material.
3. For any credit purchases, unless otherwise agreed to in writing signed by an authorized person on behalf of Seller varying such terms, payment shall be 10<sup>th</sup> prox. That is to say, payment in full for all credit purchases made during the billing month is due by the 10<sup>th</sup> of the following month.
4. Retention of any percentage of Seller's billing is not permitted.
5. Buyer shall pay Seller (not as a penalty, but as liquidated damages based on the impracticality of fixing actual damages) a charge on all amounts not paid when due computed at a periodic rate of one and one-half (1½) percent per month (which is an annual percentage rate of 18%) or at the maximum rate permitted by law in the event such rate is lower.
6. Buyer agrees to pay all Seller's reasonable attorney's fees and collection costs in collecting amounts not paid when due, whether or not a lawsuit is filed and whether or not the lawsuit is pursued to judgment before Buyer pays off the indebtedness.
7. If and to the extent any purchase order from Buyer to Seller should contain any terms at variance with these terms, the terms set forth herein shall be changed only if and to the extent actually agreed to in writing and signed by an authorized person on behalf of Seller.
8. In the event a check is given as payment on account or in connection with any purchase, whether or not a sale on credit, and such check, upon deposit or negotiation, is not promptly honored by the bank upon which drawn, the provisions of paragraphs 3 and 4 shall be applicable in regard to the indebtedness represented by the check. Nothing herein shall be deemed to be an approval for Buyer to give a check that does not clear the bank upon which it is drawn. Buyer also agrees to pay a service charge of \$25.00 for any check that fails promptly to clear Buyer's bank upon presentation.
9. Buyer agrees fully and promptly to furnish Seller information needed or requested by Seller for proper filling out and service of a preliminary twenty-day notice under the mechanics' lien laws.
10. Buyer shall remain obligated by all terms and provisions of this Quote in regard to all purchases made until such time as Seller shall receive from Buyer written notice of revocation and/or change in status. In order to be effective, such notice must be mailed by certified or registered first class mail to Butte Sand Trucking Co., P.O. Box 749, Sutter, CA 95982. Notice of revocation and/or change in status shall not in any way relieve Buyer from liability for any obligation or indebtedness incurred prior to the actual receipt by Seller of such notice sent in the prescribed manner. Receipt by Seller of a check or checks showing a different name than the name on the account shall not constitute written notice of a change in status.
11. This Quote is submitted by Buyer to Seller at Seller's place of business in Sutter, California and shall be deemed to have been entered into in Sutter, California. All payments by Buyer shall be made to Seller at its place of business in Sutter, California.
12. This quote is subject to the credit approval of the Buyer by the Seller. Seller, or any credit bureau or other investigative agency employed by Seller, is authorized to investigate any reference or information listed on the credit application, or statements or other data obtained from Buyer or any other person pertaining to the Buyer's credit and financial responsibility.
13. Seller reserves the right to approve or refuse credit on an individual sales or project by project basis at Seller's discretion.
14. A FUEL SURCHARGE may apply in the case of rapidly escalating fuel costs. If a FUEL SURCHARGE is implemented, it will adjust once per week on Monday. The FUEL SURCHARGE will be based on the Sacramento Average Unbranded Price as published by the Oil Price Information Service (OPIS), plus all applicable California State and Federal Taxes.
